Specification

The Specification has been amended to correct typographical errors.

Section 103(a) Rejection

The Examiner rejects under 35 U.S.C. § 103(a): Claims 1-4, 7-8, 10-13, 16-17, and 19 as being unpatentable over U.S. Patent No. 6,757,344 to Carleton ("*Carleton*") and U.S. Patent Application Pub. No. 2003/0063583 to Padovani et al. ("*Padovani*"); Claims 5 and 14 as being unpatentable over *Carleton* and U.S. Patent No. 6,218,896 to Becker et al. ("*Becker*"); Claims 6 and 15 as being unpatentable over *Carleton*, *Padovani*, and U.S. Patent No. 6,499,008 to Miet ("*Miet*"); and Claims 9 and 18 as being unpatentable over *Carleton*, *Padovani*, and U.S. Patent Application Pub. No. 2004/0086070 to Sachse et al. ("*Sachse*"); and Claim 20 as being unpatentable over *Carleton*, *Padovani*, *Becker*, *Miet*, and *Sachse*. Applicants respectfully traverse this rejection for the reasons discussed below.

Applicants respectfully submit that the combination of *Carleton* and *Padovani* proposed by the Examiner fails to disclose, teach, or suggest elements specifically recited in Applicants' claims. For example, the *Carleton-Padovani* combination proposed by the Examiner fails to disclose, teach, or suggest the following recited in independent Claim 1:

receiving a signal at an offset estimator, the signal conveying a plurality of symbols in a plurality of packets, a packet having a preamble comprising plurality of preamble symbols;

zero-padding the received signal in a time domain of the received signal with a plurality of zero-valued samples to yield a zero-padded signal, the number of the zero-valued samples related to the number of a plurality of Fourier transform bins and the number of the preamble symbols.

For at least these reasons, independent Claim 1 and its dependent claims are allowable under 35 U.S.C. § 103. For analogous reasons, independent Claims 10 and 19-20

and their respective dependent claims are allowable under 35 U.S.C. § 103. Accordingly, Applicants respectfully request reconsideration and allowance of Claims 1-20.

CONCLUSION

Applicants have made an earnest attempt to place this case in condition for allowance. For at least the foregoing reasons, Applicants respectfully request full allowance of all the pending claims.

If the Examiner believes a telephone conference would advance prosecution of this case in any way, the Examiner is invited to contact Keiko Ichiye, the Attorney for Applicants, at the Examiner's convenience at (214) 953-6494.

Although Applicants believe no fees are due, the Commissioner is hereby authorized to charge any fees or credit any overpayments to Deposit Account No. 02-0384 of Baker Botts L.L.P.
